Please describe in 150 to 200 words what you WOULD LIKE to answer:

My dear grand-daughter, I have gone through so many ups and downs but here I am celebrating my birthday with you. I was born in an illiterate and poverty stricken family. Despite all, I strove and got three hundred and fifty marks in KCPE. There was no money to cater for my secondary school education. I applied

for scholarship with Aiducational International. I was very fortunate to be considered. I worked hard in academic work and succeeded in the final exams with a mean grade of A plane having my ambition to be a broadcaster.

I joined Nairobi University for a course in Information Technology. Then, I was employed by Kenya Broadcasting Corporation as a qualified broadcaster. My job was of great significance as I boosted trade in the community through advertising goods and services in television.

Through special programmes, I created awareness on the importance of conserving the environment and discouraged cutting of trees and hunting wild animals especially in this area. I also influenced good morals to the community for I entertained with songs and programmes that discouraged immorality.

I am glad that agriculture awareness have developed this community very fast.

What are your (professional) ambitions, and how will secondary education help you achieve your goals in life (100 to 150 words).

My main ambition is to be a broadcaster. This is my choice carrier which I am struggling towards it. The secondary education will open university gates and enable to make my dreams come true. It will provide me with knowledge and skills for excellent services to everybody.

The secondary education will also equip me with other additional knowledge and skills to enable me be an expert in running and managing my own private businesses, such as managing supermarkets, shops and engineering.
